

Text Sentiment Analysis :

The screenshot shows a web browser window with the URL `127.0.0.1:5500/index.html`. The page title is "Text Sentiment Analysis (Positive / Negative)". There is a text input field containing "I Love Games" and a button labeled "Analyze Sentiment". Below the input, the output is "Sentiment: Positive 😊". The browser's developer console on the right shows the following log entries:

- Model loaded `index.html:24`
- Text: I Love Games `index.html:44`
- Sentiment: Positive 😊 `index.html:45`

The Windows taskbar at the bottom shows the date as 26-02-2026 and the time as 03:33 PM.

Lab Assignment 1 :

The screenshot shows a web browser window with the URL `127.0.0.1:5500/Lab%20Assignment%201/part1_train_sentiment.html`. The page title is "Part 1: Train Sentiment Classifier". There is a button labeled "Train Model". Below the button, the output shows the training progress: "Preparing dataset...", "Training RNN model...", and "Training completed!". The browser's developer console on the right shows the following log entries:

- Live reload enabled. `part1_train_sentiment.html:182`
- Model trained `part1_train_sentiment.html:71`

The Windows taskbar at the bottom shows the date as 26-02-2026 and the time as 03:43 PM.

Lab Assignment 2 :

Part 2: Test Sentiment (No Training)

i love games

Sentiment: Positive ●
Confidence: 1.05%

Live reload enabled. part2_test_sentiment.html:69
Text: i love games part2_test_sentiment.html:34
Sentiment: Positive ● part2_test_sentiment.html:35
Confidence: 1.05% part2_test_sentiment.html:36

> `ctrl` `l` to turn on code suggestions. *Don't show again*

Lab Assignment 3 :

Part 3: Compare RNN vs Dense (No Training)

i love games

RNN Model Confidence : 2.17%
Dense Model Confidence : 4.21%

🏆 Best Performance: Dense Network

Live reload enabled. part3_compare_pretrained.html:72
RNN: 2.17% part3_compare_pretrained.html:38
Dense: 4.21% part3_compare_pretrained.html:39

> `ctrl` `l` to turn on code suggestions. *Don't show again*
